

Are you in Compliance?

The deadline is here!

**As of November 8, 2010 all companies using power-operated equipment, when used in construction, that can hoist, lower and horizontally move a suspended load might have to have a Qualified Signal Person!
(OSHA 1926.1428)**

**Qualified Signal Person Training is being offered now!
Contact L.A.W. Construction Safety Consultants
today to schedule your training to avoid OSHA fines
in the near future!**

770-880-1487

All training includes extensive power point in Qualified Signal Person requirements such as understanding of signals to be used, as well as all forms of signals, basic understanding of crane operation and limitations, including the crane dynamics involved in swinging & stopping loads and boom deflection from hoisting loads.

Training also includes oral or written test and practical test.

Due to practical test, training class size is limited to 15 people.
